What's it all about?

Out of our ministry's need for a camp site and the prayers of our OFW members to establish a worthwhile investment in the Philippines, the *Macedonia Heights Project* was implemented in April 2007. Macedonia Ministries enters into an agreement to purchase a 1.6 hectare land in Silang, Cavite (at the outskirts of Tagaytay City), divides it into some smaller sizes with provisions of internal roads or "right of way", and offers them to brethren who are interested to invest. The designated cost of lot per square meter includes the right of way, clearing or grading of roads, individual survey as well as the cost of the processing of individual title (registration, clearances, notarial fees, transfer tax, etc.)

Out of this project, a **CAMP SITE** will be donated to the Macedonia Ministries that will be used mainly for Christian conferences, camps and spiritual retreat. We aim to complete the purchase by the middle of 2008. *Please see the Subdivision Plan for details on available lots...*
